Terms and Conditions

The following is a list of our donation requirements.

In order to receive our Charging Station you **must** agree to all of the following conditions:

- The Charging Station must be for the use of customers and cannot be reserved for staff use.
- One parking space must be allocated as priority use for electric vehicle (EV) charging. The allocated EV parking space must not be shared with a disabled parking space.
- Have a secure car park to ensure that the Charging Station and car are not interfered with.
- The ZCW parking sign needs to be displayed on your premises.
- You must have already had the electrical site survey and be willing to cover the cost of the installation. Our donation package includes a Type 2 Charging Station, due to the added complexity of this over 'dumb' sockets we ask that you complete a site survey and install using our recommended installation partner. This will ensure reliability for your customers using our network. However we will still donate to you if you can provide proof of a qualified in-house team or a maintenance contractor.
- The Charging Station must be installed and confirmed working within 28 days of you receiving it.
- You will maintain and regularly test the Charging Station. We recommend that the RCBO Test button is pressed weekly and the Charging Stations inspected at least every six months.
- You will be responsible for upgrading the Charging Station as needed in line with any future changes in European standards.
- You give us permission to re-publish information about your business and images from your website. As part of our marketing we will publicise your business on our website and add your location to the Open Charge Map (OCM) database. We can, if requested, work with you or your agents on other marketing activities.
- **To guarantee you receive your ZCW Charging Station as soon as possible**, please complete all sections of this form and return by email to: info@zerocarbonworld.org or by fax to: **01225 667 101**

By signing below you are confirming that you have had a site survey, are agreeing to the terms and conditions listed above and wish to proceed.
